Members of the Municipal Council for being excused from the annual house tax and plinth and establishment charges connected with the water supply. Special consideration given in maintenance cost of pumping of these charges. Before recommending the estimate it may perhaps be better to enquire from the Chief Engineer how the water supply is to be carried during the coming and future years in order to see whether it would be possible to reduce the recurring grant from Govt.

Final Note by the First Member of Council.

Subject:—

Revised estimate for improving the Water Supply to Chintamani Town.

E In Government Order No. 13550-2/M1.153-17-4 dated 24th April 1919 two estimates aggregating Rs. 48,361 for improving the Water Supply to Chintamani town were sanctioned as noted below:-

(i) Estimate for extending the feeder channel to Kannampalli Water Supply tank - Rs. 7600; and

(ii)Estimate for the construction of a service reservoir, the laying of a conduit line from Kannampalli tank to the reservoir and the realignment of the pipes - Rs. 40,761

Provision for filter beds was omitted by Government in passing the said order..

In the course of the execution of the second work the Municipal Council of Chintamani represented the need for two filter beds which were accordingly provided for, and it is reported that all the works except the Second Filter bed have been practically completed. The addition of filter beds, the enhanced rates that had to be allowed and the establishment and Tools and Plant charges have resulted in an excess of the original estimate of Rs.40,761 by Rs.18,239. The Chief Engineer for Irrigation has solicited sanction to the revised estimate for Rs. 59,000, the extra cost being met by the Government and the Municipal Council in equal shares as in the case of the original estimates.

The proposal is agreed to by the Dewan and the Members of Council and may be graciously approved.

MYSORE,
6th December 1923.

MEMBER OF COUNCIL.

Submitted to His Highness.

I submit herewith a Final Note by the...First.....

Member of Council on the subject of.....revised estimate for improving the water supply to Chintamani Town.....

Rl 36-23-2

B S R

SIR,

I have the honor to forward herewith a revised estimate amounting to Rs.59,000/- for improving the Water Supply to Chintamani for favour of obtaining sanction of Government.

2. In February 1918, two estimates, one amounting to - - Rs.7,600/- for extending the feeder channel to Kannampalli water supply tank, and another amounting to Rs.52,566/- for improving Water Supply which included provision for 2 Filter Beds, were submitted. But Government sanctioned in their Order No.13550-2/MI. 153-17-4 dated the 24th April 1919, the above estimate for - - Rs.44836/ only omitting the provision of Rs.11,805/- for the two Filter Beds. The estimate for improving the water supply, excluding the estimate for feeder channel therefore stood at Rs.40,761/-

T

3. The present revised estimate is for the works of the 2nd estimate, and is in excess of the original estimate of Rs.40,7 by Rs.18,239/-. The excess is chiefly due to the provision fo 2 Filter Beds. Of which Rs.6,000/- is sanctioned for the constru tion of one Filter Bed, vide Chief Engineer's No.3623 dated 2/7 and of the balance of excess, Rs.5,898/- is for 10½% Establishmen and Tools and Plant Charges and the balance for the second Filter bed and enhanced rates. A comparative statement is enclosed.

13)

report accompanying the estimate explains the detailed provisions made in the estimate.

4. The President, Municipal Council, has countersigned this estimate with the reservation that Government may bear its quota of the entire cost and further option may be given to them to purchase Tools and Plant and Establishment charges being excused. This cannot, however, be considered as proportionate charges of the New Construction Division have to be borne by works as per Government Order sanctioning the Special Water Supply Construction Division.

5. All the works except the second Filter Bed have been practically completed.

I have the honour to be,

S i r,

Your most obedient servant,

Jno. T. Black 14.8.23.

Chief Engineer for Irrigation.
